Subject: GC ACO with NYC -Confidential Settlement Communication-

Walter,

Please review the attached language the City proposes for the waiver language. I think this brings us significantly closer to what EPA is seeking. As we discussed, it is really important that the technical meeting occur before we finalize the consent order because we need to understand the nature of the EPA's comments on the design, specifically the direction for the schedule and the size of the tanks. I am available after hours tonight, or early tomorrow morning if you wish to discuss before our meeting.

Lastly, please note that National Grid still has not shared a draft term sheet. We are scheduled to meet with them on January 26, but I am not sure we will keep that appointment if it will not be a productive use of our time. It would be greatly appreciated if you, or Tom, could call them to emphasize the importance of sharing a term sheet in advance of the meeting.

Many thanks for your time and attention.

Angela
